

Lakeview Light & Power
Role Description: Journeyman Lineman

Hourly Wage: Starting at \$47.73; Union Position

Regular Business Hours - 4 days/10 hours: Monday – Thursday, 7:00am – 5:30pm

Job Duties:

This position performs a wide range of work including construction, maintenance and operation of our overhead and underground distribution system and operation of equipment. The position will work on energized or non-energized power lines, cables and equipment.

The essential functions of a Journeyman Lineman will include: Safely installing, maintaining and repair of cable, conduit, vaults, enclosures, and transformers. Performs switching, locating, hi-potting and testing, fault finding, exposing, splicing, and terminating of URD cables. Must know how to operate man-lifts, and other utility vehicles, power tools and hand tools associated with the electrical line trade. This position will perform related duties and responsibilities as required. Cleans, stocks, and loads vehicles; inspects vehicles and performs minor repair and maintenance or requests follow-up repair work. Tree/brush trimming and debris removal on or near energized or de-energized lines or equipment.

The individual assigned to this position will work in outdoor conditions sometimes under potentially adverse weather situations. Must have the ability to climb poles, including conducting pole-top, bucket and vault rescue if necessary. During system emergencies, individual is expected to work extended out-of-routine hours. Position requires lifting up to 75 pounds, climbing, pushing, and pulling. An employee in this position may be exposed to hazardous materials, substances or circumstances.

Experience Required:

- Must have a High School Diploma, GED, or equivalent
- Must be able to pass the company – paid physical, drug screen, and background check
- Current Driver's License with Class A Commercial Driver's License certification
- Completion of an accredited apprenticeship program recognized by the Joint Apprenticeship Training Committee and the I.B.E.W.

Experience Preferred:

- Current certification for telescopic boom trucks with both Swing Cab (TLL) and Fixed Cab (TSS)
- Possess and maintain CPR certification, flagging, and first aid card
- Strong safety culture

Knowledge, Skills, and Abilities:

- Knowledge of applicable laws, codes, regulations, Washington State Electrical Workers' Safety Rules (WAC 296-45), policies and procedures, as well as Company line construction and maintenance standards.
- Knowledge of occupational hazards and safety precautions for this type of work.
- Knowledge of practices, methods, tools, materials, and equipment used in the electrical trade (including overhead and underground systems). Knowledge of electrical theory and principles related to power transmission and distribution systems and ability to read and interpret system maps, work sketches and circuit diagrams.
- Familiarity with OSHA 1910.269 standards
